Maria Sanchez de Thompson E.T N°3 | 2015 - 2020

COMPUTER SCIENCE STUDENT
Universidad de Buenos Aires | 2021 - Present

FULL STACK WEB DEV. STUDENT
Udemy | 2021 - Present

ACHIEVEMENTS

"Recetas Divertidas"(Funny Recipes) was my final project from highschool.
It's a system design to allow the user to search for recipes through the available ingredients.
It was mainly developed in Java using SQL and CSS.
This program allows the use of multiple clients at the same time connected through a server.
(Now available on GitHub).
